PUNE, BUND GARDEN HOTEL

In Association with

Relationship Beyond Insurance

[www.telemedicon2017.com](http://www.telemedicon2017.com)

Dear Friends & Colleagues

Telemedicine applications have successfully improved the quality and accessibility of medical care by allowing distant providers to evaluate, diagnose, treat and provide follow-up care to patients in less reached places. However, lack of common standards, and classification could pose a challenge to the growth of this market, hence this mega conclave will focus on various aspects of Digital Health such as eHealth, Telemedicine, mHealth, Medical devices, Wearables, Legal aspects, Policy and business models and other related areas.

This conference aims to

1. Introduce the total concept of Telemedicine to a wide audience
2. Discuss the potential for and implications of Telemedicine as an enabler for the transformation of health strategy and provision of healthcare
3. Discuss & demonstrate practical examples of how Telemedicine is already being implemented, in India and across the world
4. Consider how Telemedicine could be applied for the benefit of citizens, patients, clinicians and health organisation in both urban and rural India

The application of Telemedicine is changing the landscape of healthcare access and delivery forever. It is transforming the physical infrastructures where healthcare has traditionally been exchanged-hospitals and clinics- and driving the health delivery interface points out into the retail environment and into the home.

Come join us to know the future of Healthcare! Looking forward to welcoming you in Pune,  
 With Warm Regards,

**Dr. B. S. Ratta**

Organizing Chairperson & President ( TSI Maharashtra Chapter )  
 13th International Conference of Telemedicine Society of India

## Organizing Committee

### Patron

Dr Vijay P Bhatkar

### Imm. Past President

Dr Animish Chavan

### Advisors

Dr. B. S. Ratta

### Treasurer

Dr Neeta Munshi

### National Committee Members

Dr S Selva Kumar  
 Mr Vimal Wakhlu

Dr B N Mohanty  
 Dr Nirmal Gupta

Mr A K Sangal  
 Dr P K Pradhan

### Exe. Committee Members:

Dr Amit T Kharat  
 Dr Dorairaj Lavanian  
 Dr S C Ambike  
 Dr Meghana Chawla

Dr Ashim Purohit  
 Dr Jawahar Shah  
 Dr Sangeeta Wagh  
 Dr Sham Bhosale

Dr Ashok Bhanage  
 Dr Madhuri Lokapur  
 Dr Sanjay Sharma  
 Dr Suparna Telang

## International Faculty

Dr Khalid Moidu  
Dr Arun Sen  
Dr Ramesh Madhavan

Prof. Ricky Richardson

Dr Sasha

Prof Natenzon Mikhail  
Dr Kuznetsov Petr  
Dr E. Van  
Dr Sidelnikov Konstantin

Dr Chebotaev Konstantin  
Dr Artemova Olia  
Dr Sergey

## National Faculty

### Faculty

- Dr Kapil Zirpe, Dr Sushma Gurav Patil
- Dr Ramesh Madhavan, Lt Gen C S Narayanan
- Dr K Ganapathy
- Dr Kim Aravind, Dr Shiela John
- Dr Prachee Sathe
- Brig Arvind Lal, Dr Neeta Munshi
- Dr Pavan Kumar
- Maj Gen AK Singh
- Dr Unnikrishnan A G
- Dr Supten Sarbhadikari
- Dr Sanjay Pathare
- Dr S S Jadhav
- Dr A Nanivadekar, Dr Amit Kharat
- Dr Prabhat Chand (NIMHANS)
- Mr Gaur Sunder - CDAC
- Dr S K Mishra
- Dr B N Mohanty
- Mr Vimal Wakhlu
- Dr Hemant Darbari
- Dr Snehal Mujumdar
- Dr L S Satyamurthy
- Mr A K Sangal
- Dr Venkata Chalapathy
- Maj Gen A K Sharma
- Mr B S Bedi

## LAUNCH PAD

Join the Launchpad, an opportunity for the startups to share their business ideas or launch their businesses in the Digital Health sector. This platform would give the startups global exposure, and an opportunity to CXOs, Technocrats, Investors, policy makers, manufacturers and the medical fraternity.

Selected **10 companies** will have an opportunity to give a presentation, and a kiosk to display their product during the three-day conclave. The jury would select the top three companies and a cash award would be given away.

## ABSTRACT SUBMISSION

- Last Date for Submission - 30th September
- Abstract Notification - 15th October
- Full Paper Submission - 25th October

Send your abstracts on - [telemedicon2017@gmail.com](mailto:telemedicon2017@gmail.com)

## Why Participate In This Conference?

Telemedicine is often used as a generic term to describe all forms of IT-enabled healthcare reform, but it can best be thought of under four main themes, namely -

- 1) Embracing a whole variety of Clinical Applications, including:
  - Telemedicine (virtual consultations) as well as Vital Signs Monitoring for chronically ill patients.
  - Virtual outreach clinics supported by Video Conferencing, TeleHealth & TeleCare, i.e. providing more healthcare services in the home environment.
  - ePrescribing and eBooking services to access to healthcare services in secondary and tertiary care centres.
- 2) Providing eLearning through the use of the Web as an educational resources for the entire healthcare professional body who require their healthcare skills to be updated continuously throughout their working career.
- 3) Delivering appropriate healthcare information to the general public through the use of all media channels such that population based healthcare demand profiles can be changed as a result of empowering citizens with appropriate knowledge such that they take on more responsibility for providing for their own healthcare needs.
- 4) Providing a lifetime health record for citizens which when depersonalised and the data is aggregated, can enable large scale population based epidemiological studies to be made in real time, such that adverse healthcare trends in defined population can be identified and strategies put in place to minimize the impact long before it was possible previously.

- Network with the right decision makers to grow your business. Rub shoulders with investors, partners, and innovators who will transform your business and expand your market reach.
- Learn the latest trends from industry experts to strengthen your strategy. Hear from influential thought leaders as they discuss new advancements in the health technology landscape and provide solutions to challenges that impact you.
- Experience new technological platforms to gain insight to what's new in the market and develop new partnerships. Watch live product demos and engage directly with companies who are looking for new business opportunities.
- Build lasting relationships with the Health Technology community to better support your market presence, idea generation and business collaboration.
- Identify upcoming innovations and industrial partnership opportunities
- Understand current international policy initiatives and frameworks
- Develop international research & business partnerships with other stakeholders
- Learn about new innovations and cutting edge research presented by academics, computer scientists, healthcare professionals and industry speakers
- Identify optimal routes to market for new products and services and get an opportunity to:
  - a) Promote your projects, products and/or services
  - b) Initiate cross-border contacts and co-operation
  - c) Find new business and R&D partners
  - d) Present, discuss and develop new projects
